

FAMILY WRAP

ABOUT US

Family Wrap is a division of South Coast Community Services. Our team comes to you to offer support in your child's environment.

IN-HOME SERVICES

Our goal is to give you and your child opportunities outside of school hours to learn and practice the skills needed for success.

SERVICE & ADVICE

Family Wrap sees you the parent as a key partner in managing your child's mental health. Parents are included in every aspect of treatment with support and training.

WELCOMED IN SESSIONS

You'll be invited and expected to engage in counseling sessions with your child while our team models skills that you and your child can use in your everyday life.

Family Wrap Services are intended to compliment the support your child is receiving at school. Student's parents, school staff, and the Family Wrap staff make up the treatment team.

Service options are designated by the district in the IEP and designed to meet the individual needs of each student and family.

MEET *the* TEAM

Family Wrap a multi-disciplinary team who provides **In Home Services**. We wrap the whole family, not just the student. We will work with you individually and collaboratively to help you and your child reach your goals.

PROGRAM SUPERVISOR

The **Program Supervisor** works with your school to determine which services would best fit the needs of the family and maintains ongoing communication. The Family Wrap Supervisor oversees, and provides **supervision** to the Family Wrap staff to ensure the highest quality of treatment is being provided. Program Supervisor attends IEP's, manages psychiatric referrals, consults on all crisis interventions, and supports staff and families as needed.

MANAGING CLINICIAN

Your **Managing Clinician** will provide all therapy services including **assessments, treatment planning, individual therapy, family therapy, child and family team meetings (CFT's), and attends IEPs.**

PARENT PARTNER

Your **Parent Partner** will work directly with you weekly to provide parenting skills, and **coaching (Collateral)** to assist you with implementing the tools provided in treatment. Your Parent Partner is there to **support you** and link you to **community resources.**

FAMILY SPECIALIST

Your Family Specialist (FS) is a one-on-one behavior support staff who works with your child to address **behavioral goals**. The FS introduces custom interventions to help your child develop **copng skills and social skills** that can be used to **increase positive behaviors**. The FS provides **behavior coaching** (Rehab/Activities of Daily Living), and **parent coaching** (Collateral) in order to address behavioral issues in various settings.
