Family Wrap

a division of South Coast Community Services (R)

What is the Family Wrap Program?

- Family Wrap partners with SELPAs, School Districts, and Social Service Agencies to provide **in-home** educationally related mental health services to students and families.
- Intensive therapeutic services are provided using evidenced-based practices (EBP) and outcomes measures (CANS).
- Family Wrap works in collaboration with Mental Health Services offered on School Campus. We do not replace school counselors or therapist.
- Family Wrap services are intended as a “force multiplier” to extend progress into the classroom, in the home, and in the community.
- Family Wrap multidisciplinary teams engage with Parents, Students, School Mental Health Providers, and Clinical therapists, as well as Non-clinical mental health professionals, Teachers, and School Administrators.
- Family Wrap provides Children and Family Team meetings to track progress with the family and the student.
- Family Wrap provides a tiered level of services to best fit the needs of the individual student.
